## From CIO's Desk

### September 2021

The KSE100 declined by 5.3% in September 2021 to close at 44,899 points. The index decline has erased the majority of the gain accrued over the course of the calendar year and turned YTD index performance into negative 5.2%. During September, the KSE30 and KMI30 also declined by 7.2% and 6.9% respectively.

Commodity prices have risen and reached record levels due to rising demand (particularly from India and China) which has been based on a quick rebound in the global economy post pandemic. Much of this renewed growth can be due to the outsized fiscal and monetary stimulus doled out during 2019 and 2020 as compared to the more conservative bailouts of the economy seen during the 2008 Global Financial Crisis. The stimulus measures, enacted globally, have put more money into the pockets of the individual and have thereby fueled demand.

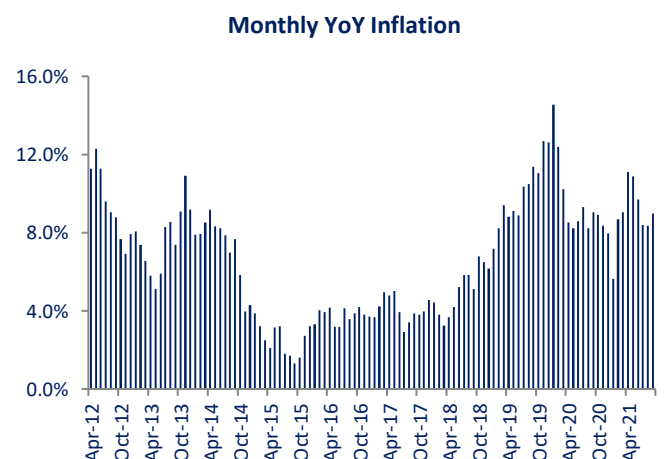

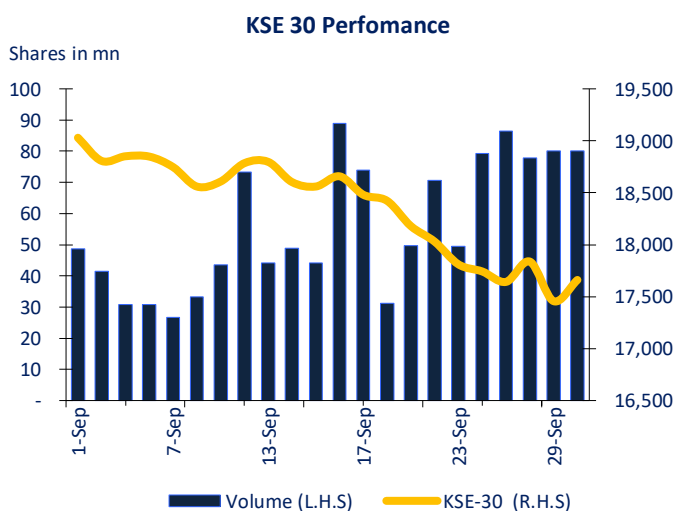

Rising demand, and the rebound in economic activity in China and India in particular has created demand for coal, oil, gas and myriad other commodities. At the same time supply remains constrained as commodity supply generally is slow to respond to changes in demand. The situation has been further exacerbated by supply constraints, container shortages and supply chain bottlenecks due to the coronavirus.

Rising commodity prices have led to a rise in Pakistan's import bill and consequently the Current Account Deficit. The CAD averaged USD 193 MN over the past 1.5 years however it has now risen to USD 1.4 BN in August 2021. The CAD for the past 3 months at USD 3.9 BN is significantly higher than the CAD for the preceding 3 months at USD 885 MN.

Higher CAD has led to slippages in the currency. The PKR has devalued to 172 against the dollar after hitting a low of 152 a few months ago. The PKR has therefore depreciated by 13% over a short span of time. The SBP has raised the Policy Rate by 25bps, citing concerns on the Current Account Deficit and second round impacts of the commodity price boom on inflation. This has restarted the monetary tightening cycle with the pace of tightening depended, to a large extent, on commodity prices.

The stock market decline has essentially priced in higher current account deficits, inflation and interest rates. While the government has taken certain measures to curb imports such as 100% financing requirement for opening LCs for imports, it is unlikely that these measures will have a sizeable impact on the import bill. Unlike the 2017 situation, the current rise in the import bill is not due to higher luxury goods imports but due to higher commodity prices which are outside the control of any government.

On the fixed income side, secondary market yields rose prior to the MPC decision, correctly foreseeing a rise in the Policy Rate. We believe the fixed income space may come into the lime light if the macro-environment continues to worsen and monetary tightening continues. A reversal of commodity prices however would prove a boon for the Pakistani economy and the equity markets.

# JS Cash Fund (JS CF)

# JS Income Fund (JS IF)

## September 2021

### Investment philosophy

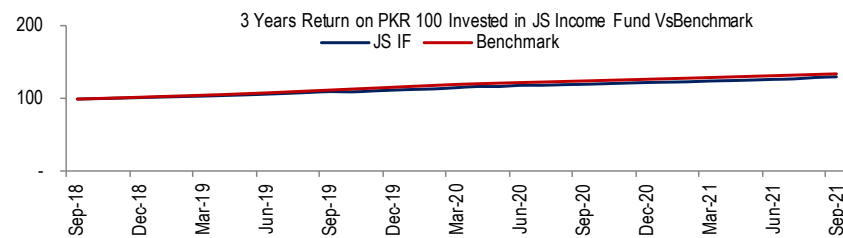

JS IF is an income fund that aims to preserve investor's capital while providing a regular stream of current income on an annual basis which is higher than that offered by commercial banks on deposits of a similar liquidity profile as this fund. The fund operates a diverse portfolio of investment-grade debt securities, government securities and money market instruments. The fund may maintain liquidity in the form of spread transactions and bank deposits.

Azgard Nine <sup>f</sup>	PPTFC	-	-	-	-	-

a) The fund has made a full provision against the principal amount in accordance with the requirements of regulatory body & the provisioning policy of the Fund. (b) The CP of ANL has been settled through issuance of 15,000 PPTFCs in the name of the Fund. These PPTFCs have been restructured however, the mgt. as a matter of prudence has maintained the provision against the said PPTFCs. In lieu of restructuring of Azgard Nine existing debt securities, Agritech pledge shares has been credited in Faysal Bank (Trustee of the Issuer) CDS account. These shares are booked and marked to market accordingly. (c) The fund has made a full provision against the principal amount in accordance with the requirements of Circular 1 & the provisioning policy of the Fund. (d) The Fund has made a full provision against the principal amount of Agritech Limited's Sukuk in accordance with the requirements of Circular 1 of 2009 issued by the SECP and the provisioning policy of the Fund. The Fund has received Agritech Limited's PPTFC of face value of Rs. 11,245 million against interest due on Agritech Limited's Sukuk which is not recognized as income by the Fund and these PPTFCs are valued at zero. (e) Non rated securities. (f) The fund received 4,827 zero coupon PPTFCs against interest receivable of listed and unlisted TFCs. Since these PPTFCs are received against already defaulted securities and have non-performing status in MUFAP, therefore the management as a matter of prudence maintained the provision against the said PPTFCs. These PPTFCs are valued at zero but cost is carried at 24,135,000.
