*The expected fixed return mentioned above will be applicable from the launch date of the plan to the maturity date. The actual fixed return to be offered by the plan during this period will be determined at the time of launch of plan, which may vary from the expected return based on capital market conditions. The launch of the Plan is subject to the successful deployment of money (either full or partial) in the auction / secondary market of the underlying security, in line with the expected return communicated to the potential investors and depending on viability of the plan in the best interest of the unit holders.

Disclaimer: All investments in mutual funds are subject to market risks. Past performance is not necessarily indicative of future results. Please read the Offering Document to understand the investment policies and risks involved. The fixed return is annualized gross of taxes and charges if any, and is contingent on holding the investment until maturity of the respective plan. Early redemption is subject to deduction of contingent load which shall be commensurate with net loss incurred due to early redemptions before the maturity of the plan(s).
